Address: Nieder-Ramstädter Straße, 64285 Darmstadt, Germany

ABOUT ME

Embedded Systems Engineer with strong academic foundation and experience. Exploring the intersection of AI and embedded systems, with a focus on functional safety, energy-efficient architectures and real-time processing, aiming to develop innovative solutions in this field. My critical analysis and project management skills help me devise scalable, sustainable, and reliable solutions.

WORK EXPERIENCE

Mar 2026 – Present

Research Student - Firmware Development
Hochschule Darmstadt University of Applied Sciences (Germany)

- Updating the CDD and communication stack layer of radio controlled remote (Zigbee) for existing student cars and extending the state machine to maintain the backward compatibility.

Jan 2023 – Aug 2025

Embedded System Engineer
IITI DRISHTI CPS Foundation, Translational Research Park at Indian Institute of Technology (India)

- Development of standard solutions to assist health care professionals, the innovation saved a few lives (till date) with considerable reduction in cost.

Sep 2022 – Jan 2023

Research and Development Engineer
Scientech Technologies Pvt. Ltd. (India)

- Development of hands-on training boards on wireless communication with energy monitoring.

Jan 2022 – July 2022

Hardware Design – Bachelor's Internship
Einfochips Pvt. Ltd. – an Arrow Company (India)

- Designed buck converter for an aerospace project.

EDUCATION

Sep 2025 – Present

Master of Science in Electrical Engineering and Information Technology
Major: Embedded Systems and Microelectronics
Hochschule Darmstadt University of Applied Sciences, Darmstadt (Germany)

Jul 2018 – Aug 2022

Bachelor of Technology in Mechatronics
Shri Vaishnav Institute of Technology and Science, SVVV, Indore (India)

Apr 2017 – Apr 2018

High School Diploma – **Science with Mathematics**
St. Arnold's Higer Secondary School, CBSE, Indore (India)

SKILLS

Electronics: RTOS, Complex Device Driver, Communication Protocols, 32-bit ARM Cortex Microcontroller, Internet of Things, Schematic Design, PCB Designing
Programming Languages: C, C++, Python, MySQL
Mechanical: CAD, 3D Printing
Tools: Git, Gitlab, Fusion360, KiCAD, AWS EC2
Soft Skills: Scientific writing, Presentation, Collaborative

Date: 12.03.2026
Darmstadt, Germany
